MATTER OF: Visor Builders, Inc.--Request for Reconsideration

97882

DIGEST:

Where request for reconsideration of GAO decision merely introduces new facts which fail to clearly demonstrate either errors of fact or of law, decision is affirmed.

By letter dated July 8, 1976, Visor Builders, Inc. (Visor), requested reconsideration of our decision Acorn Building Components, Inc., B-185605, July 1, 1976, in which we sustained the protest of Acorn Building Components, Inc. against the actions of the National Capital Housing Authority under solicitation DC 1-1, Specification 1-75-6 and recommended cancellation and resolicitation of the procurement.

Visor's request for reconsideration, while introducing some new facts previously unknown to this Office, has failed to clearly demonstrate either error of fact or of law in our decision. This failure to meet the standard for reconsideration which we have recently reiterated in Shippers Packaging and Container Corporation--Requests for Reconsideration, B-184488, January 29, 1976, 76-1 CPD 59 makes unnecessary further discussion here of the significance of Visor's newly-introduced evidence. We note in passing that Visor, being an interested party in its role as the prospective recipient of the award was twice afforded the opportunity to place documented evidence in the record upon which our original decision was based.

Accordingly, our decision of July 1, 1976, is affirmed.

of the United States
